

24 January 1984

MEMORANDUM TO: Deputy Director of Central Intelligence
FROM: Director of Central Intelligence
SUBJECT: IC Meeting - 24 January 1984

At the IC meeting this morning the following matters came up:

1. [] and the General who works with him seem to be pushing the issue of authority during wartime again. The attached papers carry the details.

25X1

25X1

3. The DCI Annual Report to the President and the Congress being put together on the basis of 35 pages consolidated out of the separate reports submitted by the major components of the Community. The purpose of this is to make it readable and to avoid gross duplication. Nobody saw any special flak from the Community on this. Do you?

4. The NIC is to prepare a paper for the Annual Report on the scope of the intelligence challenge. The CIPC wants to follow up on the estimate with an all source study of BCW []. The IC Staff wants a January 31 NIC and NFIC meeting to review a HUMINT plan prepared on narcotics which will be useful in preparing a report on narcotics intelligence mandated by the Congress.

MEMORANDUM FOR DDIC

Two footnotes to the attached:

a. (Item 1) [redacted] is pulling together an historical package which will include [redacted] study of last summer on CIA-DoD relationships, Vessey's December paper on CIA support to Special Operations Forces, and a summary of the 500 (sic) CIA-DoD agreements which are extant.

25X1
25X1

b. (Item 3) This is based on an outline which [redacted] had actually prepared for next year's annual report. Reworking this year's report into the new, condensed format will involve slapping the presentation of the report somewhat. JCS says they will have it done by mid-February, meaning it will be on the DCI's desk for signature when he gets back from his trip.
